In the 2020, online meetings have become a crucial part of business, whether it's with you team members who are working from home or with clients anywhere in the world.

Our Zoom Integration allows users to easily create meetings directly in BlueCamroo and send out the meeting details. You can connect multiple Zoom accounts to your workspace.

Once you have activated the integration, using it is quite simple. Schedule an Event, enter the name of the event, select the Time and Date, and pick the attendees.

In the new Video Conferencing section, select the Zoom account and click Create Meeting.
